A trip usually lasts 10-15 days, over three to five countries, with standard food, accommodation and procurement of the income calculated in U.S. dollars, Euros. In Saigon, some retail customers remains as hundreds of people last year. MICE (combined conferences and seminars with travel) is relatively good, with 15 delegations in 6-7/2009. Vietravel per month is about 2 to 4 groups depending on the season, averaging 16 passengers

However, Nguyen Cong Hoan, deputy director of the center Hanoi Redtours international travel, for that, for customers to Europe, the tour price is usually not the main problem. Complex problems is visa procedures for screening passengers, especially do not go for tourist purposes.

"There are many different requirements that the travel documents to prepare procedures and timely advice to customers flexibility to change. For example, customers age 50-60, to require marriage or birth is difficult because sometimes lost," he said Hoan.

Moreover, customers also must prove financially, not just savings books, money in the account but is stocks, bonds ... Tour operators should be consulted to rapidly meet customers and still meet the conditions of visa from the Embassy, so that's hard.
